As a PATRON Member you have access to all of the services in BRONZE, SILVER, GOLD and PREMIER Membership.

For over 70 years, Sussex Chamber has been working hard for businesses across the county – helping them to develop their prospects, their growth potential and ensure that this region maintains its legacy as a vibrant and forward-looking place to do business.

Our aim is to develop a strong network of Patron members ranging from world-leaders to regional stakeholders. Patron membership is bespoke, and our relationships are designed to meet the objectives of each Patron whether it's for representation, to facilitate connections or to raise their profile within the Sussex business community.

Chamber Patrons benefit from unrivalled opportunities to promote their business, their work, reach new customers, make connections and ensure that their brand and values are seen and heard in all the right places. This gives businesses who want to do more for Sussex an opportunity to access significant exposure generating platforms.

Each Patron is different, and a bespoke package of support is created based around your strategic objectives to ensure both value for you and the wider business community.
